**Q: What are the benefits of LED board bulbs?**

**A: LED bulbs can save you money on electricity and maintenance costs.**

The average life of the standard #1820 Bulb is about 1,000 Hours... LEDs can last up to 50,000 hours or more and only use 1/5 the power! LED bulbs run cooler and are brighter than standard bulbs. Additionally, they are shock resistant and temperature resistant. If you are tired of constantly replacing flashboard light bulbs, LEDs are your answer.
